What do we want to test?

- User scenarios
- Loyalty system
- Intuitiveness
- Efficiency

What do we want to have?

- Feedback
- Suggestions
- Identified problems

App & Sensors Testing

- **Test 1**

  Validate the ticket if the user forgets

  While entering the train, a user forgets to validate the ticket, and the system notifies him/Her

- **Test 2**

  Redeem points for a free trip

  While entering the train, a user forgets to validate the ticket, and the system notifies him/her

- **Test 3**

  Recharge monthly pass

  The app notifies the user and (s)he wants to recharge it via the app
